

ARTISANO

FRENCH WHITE OAK PARQUET

NATURAL BEAUTY

- Plank and parquet for creating French design patterns
- Wire brushed surface for aged appearance
- Naturally aged color tones
- Balanced 3mm sawn face and bottom

LUXURIOUS PLANK & PARQUET

PLANKS: 1/2" x 5" x RL to 71"

PARQUET: 1/2" x 4-3/4" x 23-5/8"

Quarter-sawn

Flat-sawn

LIVE-SAWN OAK

French Oak logs are “LIVE-SAWN” (LEFT).

By cutting straight through the log you get a high percentage of spectacular and stable quartersawn sections with medullar flecks and cathedral grain all in the same plank.

Wide live-sawn planks show the various natural idiosyncrasies of each log, including knots, pith or mineral deposits.

Grade-sawn logs (RIGHT) are more cost effective, but produce planks with fewer natural variations, and less natural wood beauty.

CONSTRUCTION

- Balanced 3mm dry-sawn hardwood face and back
- Cross-grain stability
- Re-sandable up to three times
- Cold press lamination
- No Urea formaldehyde adhesives
- Prefinished surface
